Topic: **Digital Twin**

Description:
Join us for an in-depth presentation on Electrical Digital Twin, a cutting-edge technology transforming the design, analysis, and management of electrical power systems. Discover how Digital Twin provides engineers with a virtual replica of their physical assets, enabling real-time performance monitoring, predictive analysis, and scenario-based simulations. Learn how this innovative solution enhances system resilience, minimizes downtime, and facilitates informed decision-making for efficient maintenance and operational strategy.
- What is an Electrical Digital Twin?
- Digital Transformation Journey
- System Architecture
- Real Time Demo
- Q&A
