9:00 – 9:30 Follow-up / Social

Topic: **Changing Codes for a Changing World**

Description – This talk will start with the base code process involved with evolution of the NFPA and ICC codes as they relate to the electrical industry. An emphasis will be placed on the process from inputs to adoption. Lyons will present this portion leaning on his experience as a member of National Electrical Manufacturers Association and their input into the process from suggestions to serving on various boards that publish the final standards. The second part of the talk will deal with localized adoption of the standards. This portion will discuss the various stakeholders that push varying opinions on the localized level where adoption and enforcement of the codes occurs. The combination of public comments and commercial desires will be discussed in how they have to contend with technical reasoning. Mr. Maynard will present this portion leaning on his experience as the appointed electrical engineer of Pennsylvania's Uniform Construction Code review and Advisory Council.

Speakers: Kevin Maynard PE – Potomac Testing Inc. a NETA Company and Jack Lyons - NEMA.
