Topic: EV Charging and Supply Equipment

Description: This talk will cover aspects of the 2020 National Electrical Code Article 625 Electric Vehicle Charging and Supply Equipment including challenges associated with performing load calculations in existing buildings and proper application of adjustable current settings. We will be helped to understand the local inspector's issues and concerns and the importance of following the manufacturer's installation instructions. A Q & A session to follow.

Speaker: Marty Schumacher, CMECP® - Worked as a Howard County electrical inspector and senior Electrical Plans Examiner for 29 years. He holds a Maryland master electricians license, journeyman's license, and is a member of the NFPA, IAEI, AFAA and is a IAEI Certified Master Inspector (CEI-M), ICC certified commercial electrical inspector, residential inspector, electrical plans examiner and MD State Fire Marshall 3rd party inspector. Marty serves on five Underwriters Laboratories (UL) standards technical panels (489,498,2594,506,1682) and in 2013, and again in 2019, the Chesapeake Chapter of the International Association of Electrical Inspectors, voted Marty in as its next President. As a trained electrician and former electrical contractor, Marty brings his lifetime of learning and over 25 years as a code instructor into all of his classes
