

IEEE-IAS INDUSTRY APPLICATIONS SOCIETY (BALTIMORE)

MEETING

The Institute of Electrical and Electronic Engineers - Industry Applications Society are pleased to announce the upcoming Dinner Meeting. Information regarding the meeting is as follows:

Date: Wednesday, November 20th 2024

Time: 6:00 – 7:00 Social Hour / Open Bar
7:00 – 8:00 Dinner
8:00 – 9:00 Program
9:00 – 9:30 Follow-up / Social

Topic: Isolation Requirements & Architectures Enabling Resilience Applications of Energy Storage Systems

Description: As technology continues to mature and the need for uninterrupted power becomes increasingly critical, the standby power landscape is evolving beyond traditional generators. Distributed Energy Resources (DERs) are now assuming multiple roles in these systems, prompting a reevaluation of how they can be effectively deployed to ensure operational reliability and compliance with codes and standards in resilience applications. This session will delve into the evolving market dynamics, changing codes, and emerging architectures that facilitate the integration of DERs for backup power, even within critical standby systems.

Speaker: Victor Bonachea (ASCO Power Technologies) brings 13 years of experience from Applications Engineer to Product Management with an education in Electrical Engineering and Engineering Management. His expertise lies in stand-by power solutions, monitoring architectures, and has several patents in this space. He has been involved with IEEE for 15 years where he is currently a Senior Member and was awarded the 2019 IAS/PES Outstanding Engineer Award for North Jersey. Most recently he was selected as one of Consulting Specifying Engineer’s 40 Under 40 Engineers in 2024.

Cost:

\$60.00 (Members Paid-in-Advance) Reservation Deadline: 11/15/2024

[Add to Cart](#)

\$65.00 (Non-members Paid-in-Advance / Members Paid-at-Door)
